INFORMED CONSENT TO CHIROPRACTIC TREATMENT

Chiropractic care, spinal adjustments, has been the subject of government reports and multidisciplinary studies conducted over many years that have been demonstrated to be a highly effective treatment for spinal pain, headaches and other symptoms. Maintaining spinal alignment through chiropractic care contributes to your overall well-being. The risk of injuries or complications from chiropractic treatment is substantially lower than that associated with many medical treatment, medications and procedures given for the same condition.

I acknowledge that I have received information regarding my condition and proposed chiropractic treatment as well as alternative courses of care, the benefits, the risks, the side effects of treatment and the consequences of not having the proposed treatment.

I understand and am informed that, as in all health care, in the practice of chiropractic there are some risks to treatment, including but not limited to: muscle strains & sprains, fractures, dislocations, disc injuries and strokes. I wish to rely on the doctor to exercise judgment during the course of the treatment that he feels at the time based upon the facts then known, is in my best interests.

My doctor has responded to all of my requests for information about the proposed treatment. I have read, or have had read to me, the above consent. I have also had the opportunity to ask questions about its content. I intend this consent to apply to all my present and future chiropractic care in this office.
